

43. SECRET BANKER'S MANUAL REVEALS ALL

One of the heads of a major university read Tom's banking books. After reading the books the head of the university decided to expose the truth about banking. Later in 2001, this individual saw that the university taught a banking class. He went to the university book store to buy the books for the banking class and they would not sell him the books like all of the other university classes. To get the books for the banking class you had to get a bank president to give written authorization for you to attend the class and you only got the books in class. The head of the university insisted that he had authority to see the class materials as the bankers objected. After much resistance from the bankers, he obtained the books. He gave Tom the teacher's manual and student's books. Tom put this information into the Secret Banker's Manual. The class curriculum explained the banking laws and taught that if someone were to sue the bank in a certain way the bank wins and if one were to sue the bank in another way the bank loses. This information was tested resulting in people having their mortgages canceled. We cannot guarantee future results. The manual also reveals what bankers do to obtain huge returns on investments using computer generated leads telling you *when to* buy or sell in the market place. The university curriculum proves that the bankers know exactly what they are doing and how to profit from the banking system that they forced the nation into.

Several people have tried to copycat the information charging \$1,000s. The copycats run into trouble when things change and the copycats cannot copycat because the new strategy changes. This is why Tom printed the Secret Banker's Manual so that you can obtain the original for a fraction of the cost of the copycats. It shows you to laws, strategy and notices that the bankers fear you will learn about.

This manual is so powerful and revolutionary that you must sign an agreement to keep the information confidential. You cannot lend the manual out - your friends must buy it for themselves. Learn how to use the secret banker's information and you could really profit from the information. If you do not learn how it works and use it to your advantage, you will live like a slave like your friends and neighbors. Be smart and use the system to your advantage. Ask your friend where to buy a copy or do a internet search on Tom Schauf to find a distributor. Better yet become a distributor and sell the manual. There are three ways to return the wealth back to Americans. we can use the vote, cancel loans or use high returns on investments using computers to generate buy or sell signals. High returns on investments is the way to go.
